

DALE MARTIN

Call: 1997

Dale Martin is one of the UK's top juniors specialising in employment and commercial law, regularly appearing against silks in injunctive, appellate and high value tribunal matters. Much in demand, Dale has recently featured in several high-profile cases, both in his own right and led by silks within Chambers and from other sets. Increasingly instructed by blue chip firms, Dale's cases often involve individuals of very high net worth and are of unusually high value. Dale is also increasingly selected by law firms for their own litigation, enjoying a 'trusted advisor' status in difficult disputes. With a keen attention to detail and a compelling advocacy style, Dale has a formidable reputation and his practice continues to go from strength to strength.

Employee Competition & Injunctions

- Dale acts in and advises on numerous **multi-party injunctive proceedings** and related **damages claims**

for breach of **fiduciary duty**. Dale has recently defended a search order and has acted for a claimant in a multi-party financial services injunction application. His recent injunctive work encompasses industries such as the **insurance, banking and architectural** fields and often involves allegations of dishonesty/fraud. This work all follows on from Dale's representation of the successful claimant (led by David Reade QC) in the landmark springboard injunction and team move case of **QBE v. Dymoke** [2012] EWHC 80, [2012] EWHC 116, [2012] IRLR 458 (Haddon Cave J). The case resulted in the first known order for final springboard relief consequent upon breaches of employees' duties of fidelity and breaches of fiduciary duty whilst in employment. They had already been successful in obtaining two interim injunctions prior to trial.

- Having successfully resisted an injunction at the interim stage, Dale acted for the Defendants at trial in the restrictive covenant dispute in **Romero Insurance Brokers Ltd v. Templeton** [2013] EWHC 1198 (Sir Raymond Jack sitting as a High Court Judge). The case dealt with the correct test for repudiatory breach of contract, the alleged right to work prior to termination of employment and the approach to be taken to the enforceability of the covenants in the context of the insurance industry. The trial figured heavily in the insurance press.
- Most recently, in 2017, Dale acted for a claimant in a **team move** case in the trade displays business against seven defendants, including the new employer, enforcing restrictive covenants and obtaining a springboard injunction.
- Dale has also defended injunction proceedings brought against an employee engaged by a new business of a TV celebrity entrepreneur.
